

2,500 - 45,000L Models

The Fuelchief™ range of Diesel storage tanks has been designed to meet the most stringent environmental standards and to operate in the most severe conditions.

This new range comes with a number of industry-leading features such as fully enclosed pump cabinets for security and an improved inner tank designed with a sloping floor for water catchment.

The double outer wall design is capable of holding 110% of the capacity of the inner tank to eliminate any risk of pollution and participate in the protection of the environment. Each Fuelchief™ tank is designed and built to the strict Australian Standard AS/NZ 1692 and HSNO COP24.

This gives you the necessary peace of mind when securely storing that most valuable asset of yours - your fuel.

- 2,500L total capacity
- Exterior dimensions: 1140 x 2500 x 1500mm (w,d,h),
- Inner/Outer tank thickness: 3mm

FUELCHIEF DC50

- 4,900L total capacity
- Exterior dimensions: 1140 x 2950 x 2550mm (w,d,h)
- Inner/Outer tank thickness: 3mm

FUELCHIEF DC100

- 10,450L total capacity
- Exterior dimensions: 2300 x 2950 x 2550mm (w,d,h)
- Lockable front access hatch for Todo tank filling and keypad access
- Inner/Outer tank thickness: 3mm

FUELCHIEF DCD150

- 15,520L total capacity
- Exterior dimensions: 2320 x 3900 x 2520mm (w,d,h)
- Lockable front access hatch for Todo tank filling and keypad access
- Inner/Outer tank thickness: 6mm

FUELCHIEF DCD200

- 20,500L total capacity
- Exterior dimensions: 2260 x 5850 x 2520mm (w,d,h)
- Lockable front access hatch for Todo tank filling and keypad access
- Inner/Outer tank thickness: 6mm

FUELCHIEF DCD450

- 45,000L total capacity
- Exterior dimensions: 2260 x 11850 x 2520mm (w,d,h)
- Lockable front access hatch for Todo tank filling and keypad access
- Inner/Outer tank thickness: 6mm

THE DC SERIES

Kit your tank out with one of four different packages – designed for the user that simply wants to pump fuel, through to the site that requires real-time visibility of their fuel usage.

Simple but sound and proven tank packages to keep fuel pumping and therefore ensuring that your operation is running as efficiently as you need it to be.

Package	Pump	Delivery	Fuel Management	Tank Models
